

Nourish the Children

Dear Visitor.

Body Tech is supporting and promoting an international charitable initiative called “Nourish The Children”. This is an opportunity to create awareness to the enormous plight of the world hunger/malnutrition issue, and generate meal donations through the initiative. (More information attached)

This concept succeeds by selling a highly nutritious food - VitaMeal - and then allowing people to donate their purchases to third-party non-profit organizations that specialize in distributing this food to those suffering from malnutrition and famine.

There are offices here in South Africa where individuals and companies are benefitting those children in desperate need in our country.

Below are the different options for donating, 3 of them using an Automatic Delivery Program.

1. **One Time Purchase**
 2. **Monthly Purchase**
 3. **Bi-Monthly Purchase**
 4. **Quarterly Purchase**
- **Five-bag option** – R925.00 – you are feeding 5 children for a whole month *(and the NTC will feed one more)*
 - **Two-bag option** – R370.00 – you are feeding 2 children for a whole month
 - **One-bag option** – R185.00

Companies can benefit for BBBEE rating by up to 25% on their BBBEE Scorecard by supporting and donating to “Nourish the Children”. (Terms and Conditions Apply)

Background on the BEE Scorecard

Entities get up to 25 points (out of 100 points) on their BEE scorecard, as more than 80% of our foundation’s beneficiaries are previously disadvantaged individuals.

You earn points on the BEE (Black Economic Empowerment) scorecard. The Codes of Good Practice for Broad Based Black Economic Empowerment (BBBEE) forms the basis of the requirements for business in the Government’s aim to encourage the incorporation of the bulk of the population into the economy.

From 9 February 2007, the code is binding on all state organisations and public entities. For private sector enterprises entering into business with a state organization or public entity (such as tendering for business), compliance is also compulsory. For private business it is imperative to comply to retain competitiveness.

The code rates an entity on a scorecard system, with 7 elements and their particular weighting contributing to the total score (out of 100). When you make a donation to the Hunger and Thirst Foundation, you contribute to the 7th element, being Socio-economic development (SED). As The Foundation’s beneficiary

group is at least 80% black (defined as Black, Indian or Coloured). The full value of the donation is recognized to score points.

1. **Donation Points for Large Private Entities: Turnover > R35m per annum**

- For large Private entities, 5 of the total points can be earned when donating 1% of the entities net profit after tax. These entities are scored on the Generic Scorecard having to contribute to each element

2. **Donation Points for Medium Sized Entities: Turnover > R5m - R35m per annum**

- For medium Private entities, 25 of the total points can be earned when donating 1% of the entities net profit after tax. These entities may elect to be scored on the scorecard for Qualifying Small Entities, choosing to be rated on 4 out of the 7 elements only (each weighting an equal 25%)

3. **Donation Points for Small and Micro Enterprises: Turnover > R5m per annum**

- Exempted Small and Micro Enterprises enjoy a deemed BEE recognition of a level 4 contributor (having between 65 and 75 points on the scorecard) Donating to our foundation can have a significant impact on the entity's BEE Scorecard
