TRION:Z®

BENEFITS & TECHNOLOGY OF TRION:Z

TECHNOLOGY:

- ✦ Two – 1,000 gauss magnets & negative ions.
- ✦ Concentrated strength for maximum benefits.
- ✦ The negative ions in Trion:Z products are released in measurable and significant amounts at rates 50 to 100 times higher than our competitors.
- ✦ Patented Alternating North-South Polarity Orientation (ANSOP™) TECHNOLOGY.

NEGATIVE IONS YIELDED PER SECOND:

- ✦ 662

FUNCTION:

- ✦ Naturally promotes self-healing through electromagnetic balance.
- ✦ Utilizes sophisticated "ANSPO™" Technology to assist the body's healing processes by blocking pain sensations.
- ✦ Magnetic therapy utilizes the natural energy of magnetism that is critical to health and well being.
- ✦ Utilizes all natural botanical elements to generate abundant levels of negative ions.

BENEFITS:

- ✦ Reduce inflammation.
- ✦ Increase blood circulation FDA approved in Japan.
- ✦ Over 65 + NCAA Certified Collegiate Licenses.
- ✦ Increased Concentration
- ✦ Expedited recovery time

PRODUCTS:

- ✦ NCAA Certified Collegiate Wristbands Necklaces.
- ✦ Necklaces.

RESEARCH-MAGNETICS & NEGATIVE IONS

- ✦ Magnetic therapy is a non-invasive treatment to prevent and manage chronic ailments.
- ✦ Applying magnetic fields directly to an injured area naturally improves blood flow and oxygen to enhance the body's healing processes.
- ✦ Improved blood flow and fluid exchange to the injured tissue helps reduce pain inflammation.
- ✦ Magnets have been scientifically proven to enable the body to regain its self healing electromagnetic balance naturally.
- ✦ Negative ions are prevalent in nature and assist with relieving stress, boosting energy, and increasing focus and concentration.

COMPETITORS TECHNOLOGY:

- Aqua-Titanium
- Holographic technology
- Ion energizer technology
- Like polarity magnets.

NEGATIVE IONS YIELDED PERSECOND:

- 21

BENEFITS:

- MLB TEAMS

TRION:Z[®]

FREQUENTLY ASKED QUESTIONS

Q: HOW LONG SHOULD TRION:Z WORK?

A: Trion:Z should maintain its negative-ion producing properties for many years. Unlike other ion bracelets, Dual loop, Broadband, Single loop necklace are made with a unique material called "Mineon Health[®]", which has "negative ion producing minerals" woven into the fabric. It will not "discharge" like many metal "ionized" bracelets.

Q: WHAT SIZE TRION:Z SHOULD I BUY? HOW SNUGLY SHOULD IT FIT?

A: How tight you wear the bracelet is based on personal preference. It is an elastic material to stretch over your hand. Some people like it loose and floppy, some like it to fit snugly and not move during sports. Measure around your wrist using a piece of string or tape measure then purchase the closest size to your actual wrist size. If you like a loose fit, select the next larger size than the actual measurement. Trion:Z Dual-loop, Broadband and Active style bracelets stretch to slide over your hand. Trion:Z Palette Mag-Titan is adjustable. * Necklaces do not stretch but have a "ball-and-socket" style clasp.

Q: CAN I WEAR THE TRION:Z WHILE BATHING, SWIMMING OR SURFING?

A: Yes, Trion:Z will retain its "magnet technology and negative ion-producing power" even after being submerged, or exposed to salt water. It should be thoroughly rinsed out after being in salt water or in chlorine to preserve its appearance.

Q: CAN I WEAR MORE THAN ONE TRION:Z AT A TIME?

A: Yes. Many people wear more than one at a time. If you find yourself feeling lightheaded or overly stimulated while wearing multiple bands, reduce the number that you wear.

Q: SHOULD I BE CONCERNED ABOUT WEARING A MAGNET/ION PRODUCT IF I HAVE A PACEMAKER OR OTHER MEDICAL DEVICES?

A: Any devices or products that are effected by magnets or magnetic fields should be considered when using the Trion:Z. If you have any medical devices or conditions, you should consult your physician before wearing the product.

Q: CAN I WEAR TRION:Z WHILE WEARING A WRISTWATCH?

A: If you have a mechanical movement (a watch that needs to be wound, or automatically rewinds itself) in your watch instead of an electronic movement (Quartz movement or similar), you should wear the Trion:Z on the opposite wrist as your wristwatch.

Q: WHAT IS THE WARRANTY ON TRION:Z PRODUCTS?

A: Trion:Z provides a limited warranty policy on its bracelets as it relates to manufacturing defects and workmanship for six months from the date of purchase. Any defects occurring during this time frame as a result of normal use will be either repaired or replaced at the expense of Trion:Z. The following conditions apply to this warranty: 1.The bracelet must have been purchased from an authorized Trion:Z dealer. 2.The consumer must present proof of purchase from an authorized dealer. 3.The manufacturer reserves the right to refuse warranty claim based on evidence of abuse, mistreatment, defacing or misuse upon receipt of returned product. 4.This warranty applies only to the original customer of the Trion: Z product. 5.The replacement product will be under the same warranty as the original bracelet, assuming its purchase date for future warranty purposes. 6.Trion: Z management reserves the right to change the terms of this warranty policy

Q: IS THERE A PROPER WAY TO ORIENT THE MAGNETS?

A: For bracelets, the two holes of the magnet housing should face the skin for maximum penetration. We have added additional magnets to compensate for the Necklace being worn loosely or over clothing. With all the products, there are no specific areas to place the magnets. The products should be worn to fit comfortably and not be too tight, so as to not cut off circulation.

Q: DO I WEAR TRION:Z 24/7?

A: Trion:Z can be worn 24 hours a day, 7 days a week. It can be worn while showering, but many people remove it when bathing to keep the product dry.

Q: HOW DO I WASH MY TRION:Z?

A: You should hand wash in warm/cool water using a mild detergent every other week or more often depending on use. Allow to completely air dry. DO NOT put in the washing machine or dryer.

Q: IS ONE TRION:Z MORE POWERFUL THAN THE OTHERS?

A: All of our products use the same technology.

Q: CAN I WEAR TRION:Z WHILE SLEEPING UNDER AN ELECTRIC BLANKET?

A: Yes. The technology of Trion:Z is different than other negative-ion products, especially compared to metal "ionized" bracelets, and will not become discharged when worn while sleeping under electric blankets.

Q: CAN I WEAR TRION:Z ON MY ANKLE?

A: Yes, you will need the appropriate size, which may be bigger than for your wrist. If a bracelet is size is not available to fit your ankle, you may want to purchase a necklace and wrap it around your ankle twice.

Q: WHAT IS YOUR RETURN POLICY?

A: New Products purchased on www.TrionZ.com are eligible for return within a 60-day period from the date of purchase. Returned products must be received in new, unused and resalable condition. **Trion:Z reserves the right to refuse receipt of returned product should that product not meet Trion:Z's criteria for new, unused or resalable condition.** Used products may not be returned for refund or exchange. Order entry or shipping errors must be identified and claimed **within 15 days** of receipt of shipment by contacting Trion:Z Customer Service 076 940 5815 or info@trionz.co.za.

All products must be received in new, resalable condition or shipment will be deemed unacceptable and returned at the customer's expense. All returned shipping charges will be assumed by the customer.
